

LCH OPS BULLETIN

JSPOC/UNIFIED SPACE VAULT

JUNE EDITION

[EDITION 3, VOLUME 1]

3RD QUARTER ISSUE

WHAT'S HAPPENING IN THE LASER
COMMUNITY?

LCH PERSONNEL TURNOVER

The Laser Clearinghouse (LCH) has had significant turn-over since last march. Major Pindrock and MSgt Roberts have both retired. LCDR Kollar is the new LCH Section Chief, FC1 Eden has replace MSgt Roberts, and CPT Mason is now the Operations officer. These will be you LCH contacts for the next 10 months and we look forward to working with you.

JECC SPACE & JSPOC CHANGE OF COMMAND

Gen. Raymond (left) with Col. Giles (right) during the JSPOC Change of Command ceremony (U.S. Air Force photo by/Senior Airman Shane Phipps)

The Joint Functional Component Command for Space (JFCC-Space) and the Joint Space Operating Center (JSpOC) have new Commanders since our last publication. Lt Gen Susan Helms relinquished Command to Lt Gen John Raymond during an April 1st Change of Command ceremony. Additionally, Col John Wagner relinquished command of the JSPOC to Col Giles on June 6th.

WWW.SPACE-TRACK.ORG

If you haven't registered with SPACE-TRACK.ORG please do so. Please contact LCH for instructions. You must be registered with SPACE-TRACK.ORG in order to attach PRMs and download PAMs. We plan to make the transition July 1st, 2014. If you have already discussed your status in making the transition with LCH, please keep us updated.

LCH Organizational Email

JSpOCLCH@us.af.mil

LCH is now using a consolidated email organizational account. Please email our org box versus individuals.

INADVERTENT ILLUMINATIONS

We had zero Lasing Outside Approved Parameter (LOAP) incidents since our last issue, Good job to everyone! Ensure that you report any LOAP events to LCH so we can ensure there was no significant effect to any on-orbit bodies. This is a critical process to ensure our research, warfighting, and manned assets remain safe within the space environment.

UPDATES TO THE LASER REGISTRATION FORM, WE NEED YOUR INPUT!

We are making updates to the Laser Registration form for registering new laser systems, or updating parameters to existing laser systems. As we implement these changes and upgrades we are also going to test an Excel based registration form to help standardize and streamline the registration process. Here is where we need your help: **If you have noticed any part of the laser registration form which didn't seem to work well for your particular program, or if you have suggestions to help us, please let us know.** You are the end user and we want to ensure you have the most user friendly form possible. Email your suggestions to JSpOCLCH@us.af.mil and we will let you know if we can implement your suggestions.

UPDATES TO THE LCH CPA PLAN

We will be making updates to the LCH CPA Plan to correct names of JSpOC sections and to update processes. Once the updates are completed we will be sending them out to all our programs. We expect completion before the next quarter, so look forward to receiving these updates.

"The Laser Clearinghouse mission is to provide the mission capabilities for supporting safe and responsible laser activities consistent with the needs of national defense"
